

CHARGER SPECIAL EDITION

from Dodge for 1975

INTRODUCING
A VERY SPECIAL EDITION
CHARGER.

Welcome... to an exciting world of personal luxury.
The elegant new world of Charger Special Edition.

Everywhere you look, you'll find Charger Special Edition is dedicated to handsome styling, individual comfort, and attention to detail. You can see it in the distinctive new roof with fixed opera windows. You can feel it in the radial-tuned suspension that includes white sidewall steel-belted radial tires as standard equipment. Even the European road-style parking lights tell you this is truly a Special Edition Charger.

Of course, no finely crafted personal car would be complete without paying special attention to your quiet comfort. So may we say that we consider Charger Special Edition's blend of sound insulation and Torsion-Quiet Ride *par excellence*. This system surrounds you with sound-deadening materials that help screen out annoying road and engine noise.

But there's more to Charger Special Edition than you see here. To get the inside story, just turn the page.

Standard courtesy lights provide convenient night lighting for rear-seat passengers.

Charger Special Edition puts elegant styling right at your elbow. Front door panels feature integral armrests and assist handles.

All-vinyl front bucket seats are standard on Charger Special Edition. For those who prefer the convenience, optional six-way power seats are available with either bucket (driver's side only) or bench seats.

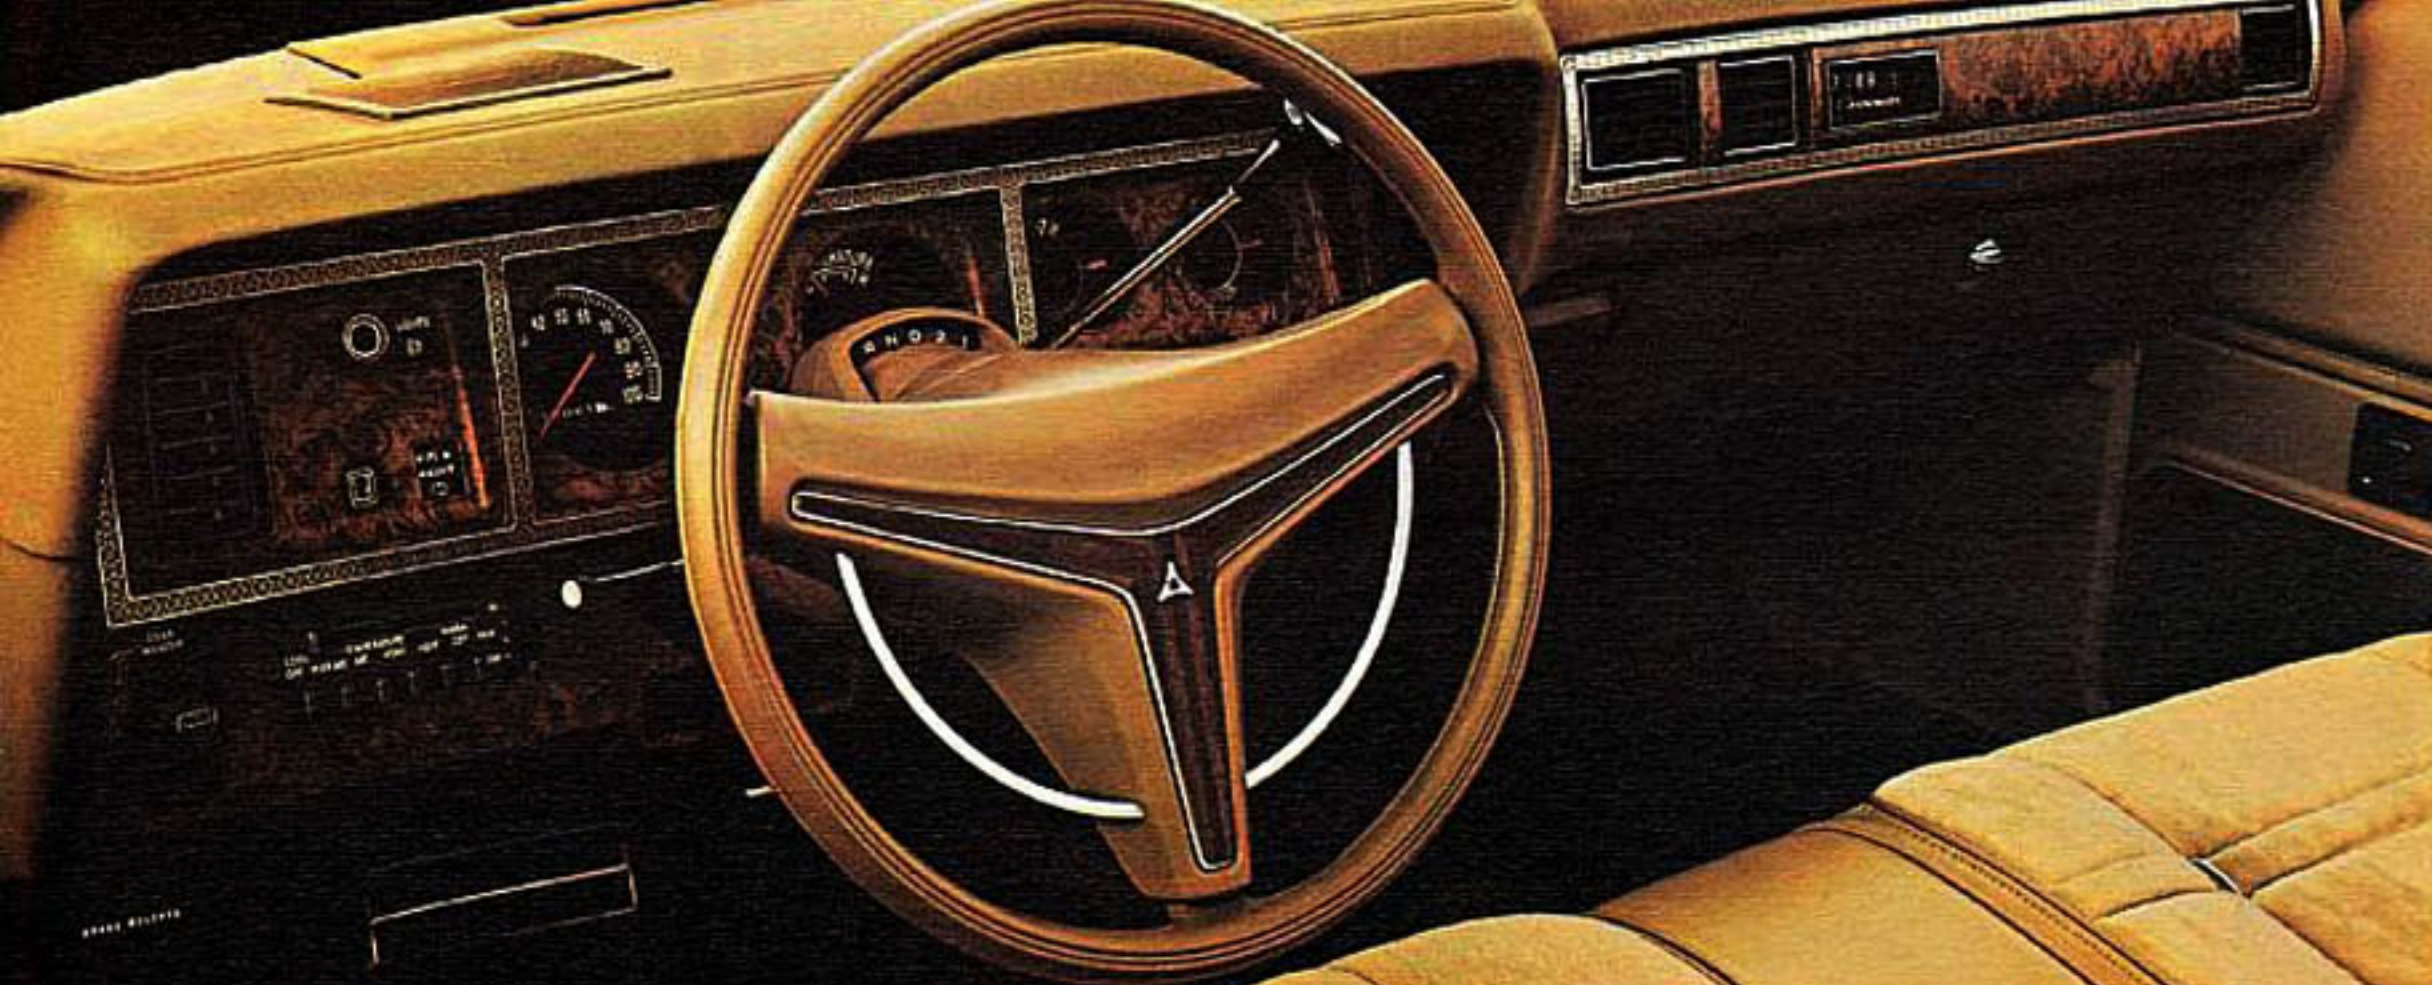

A NEW KIND OF INTERIOR LUXURY
INSPIRED BY
TRADITIONAL CHARGER VALUES.

Charger Special Edition is dedicated to your personal comfort. A glance to the left will convince you of this. This optional interior includes a velour-and-vinyl split-back front bench seat with fold-down armrest. A six-way power seat option is also available for those who prefer the extra convenience.

As for carpeting, you'd expect it to be standard... and it is. But not ordinary carpeting. This is 24-ounce shag carpeting, color-keyed to your interior.

Behind the wheel, you'll find power steering, power front disc brakes, and TorqueFlite automatic transmission keep your Charger Special Edition both comfortable and easy to drive. The best proof of this is to get behind the wheel and drive a Charger Special Edition of your very own.

Total driver comfort. That's what you'll find when you're behind the wheel of Charger Special Edition. For convenience, all accessory controls have been placed within easy reach of your left hand. And to keep you abreast of engine performance, oil pressure, temperature, alternator, and fuel gauges have been included as standard equipment.

This is the bold new look of Charger Special Edition. The deck lid features an all-steel lock with superior break-in resistance. A new bumper system with hydraulic mounts is also standard. The distinctive front end features a handsome new grille and road-style parking lights, crafted in the grand tradition of European elegance.

CHARGER'S ATTENTION TO LUXURY AND DETAIL RUNS VERY DEEP.

Distinctive European road-style parking lights accent the graceful lines of Charger Special Edition.

Electronic Ignition is standard on all Dodge cars built in the U.S. This system is virtually maintenance free. It has no points or condenser to wear out or replace.

This new optional Fuel Pacer System is designed to help your gas-buying dollars go farther. It alerts you when you are using excessive fuel.

Optional power door locks permit the driver to lock both doors with just one switch. A six-way power seat is available with either bucket or bench seats.

An electronic digital chronometer is standard. This timepiece operates on a precision quartz crystal and is accurate to within 60 seconds a month.

Optional metal sun roof provides fresh air and sunshine.

A wide selection of AM and AM/FM stereo radios with tape players is optional.

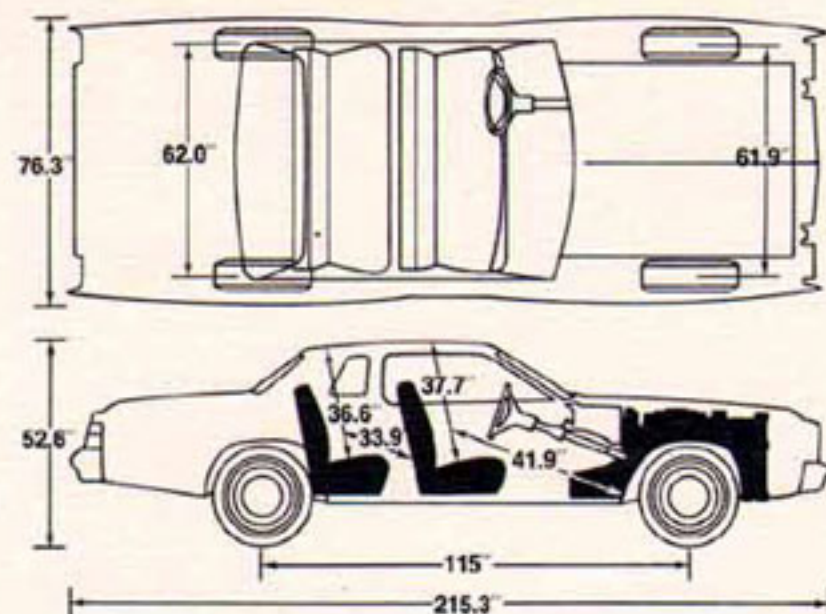

Give ice and snow the brush-off electrically with this optional rear window defroster.

Louvered opera windows are included with Charger's optional landau vinyl roof...

...or halo vinyl roof. The standard roof also features an opera window treatment.

DIMENSIONS
